*Name of Parent: Sophie*

*Name of FasTracKids Student: Landon*

*Age: 5*

*Hometown: Alpharetta, GA*

**Comment:**

"We watched Landon's love for learning increase exponentially when he started FasTracKids last year. He already loved to learn new things and your teaching methods definitely supported that and heightened his curiosity even more. We believe he is at a critical (st)age and we are excited that we supplemented homeschooling with FasTracKids and even happier that it was such a perfect marriage and that Landon loves learning as much as, or more than, kids love candy."

*Name of Parent: Rashmi*

*Name of FasTracKids Student: Pranav*

*Age: 6*

*Hometown: Alpharetta, GA*

**Comment:**

"I found FasTracKids to be an exceptionally nurturing and intellectually stimulating environment for Pranav. He was a very shy boy when he first entered the FasTracKids program. By the time he completed the program, I noticed a dramatic transformation in his personality, his self-confidence and his general communicative and social skills. Apart from developing excellent core competencies in reading and math, the program has also ignited in him what I hope will be a life-long interest in the sciences."

*Name of Parent: Melanie*

*Name of FasTracKids Student: Monica*

*Age: 6*

*Hometown: Alpharetta, GA*

**Comment:**

"Monica overcame many academic and social obstacles when she attended the FasTracKids program, and continues to show progress across all developmental domains. During the years that Monica attended FasTracKids, she was shy but always proved herself to be highly

motivated. Now in Kindergarten, the teacher has expressed that Monica displays leadership skills and can take charge of a group in a positive manner. Academically, Monica's written expression, vocabulary, and higher order thinking skills are well developed. The inquisitive thought process that she experienced during the FasTracKids lessons has provided my daughter with a solid foundation in language and science. The FasTracKids curriculum helped turn a timid, concrete thinker into a child who demonstrates the desire to question, the courage to take risks, and the persistence to succeed."

*Name of FasTracKids Student: Tallulah*

*Age: 5*

*Hometown: Acworth, GA*

**Comment:**

"Not enough can be said for the enjoyment in learning Tallulah experienced at FasTracKids. After each lesson, she would light up retelling the great experiments and using the exciting new words she learned. Seeing her public speaking skills evolve from a low shy voice when she started the program to a confident, bright-eyed speaker was invaluable. The fact she looked forward to her weekly lesson speaks for itself. Her recollection of facts from her early lessons only confirms our beliefs that she enjoyed the experience greatly. It shows us how much fun she had learning there because the experiences stayed with her in a positive and pleasurable way."

*Name of FasTracKids Student: Smaran*

*Age: 5*

*Hometown: Cumming, GA*

**Comment:**

"It has been a wonderful experience for Smaran at FasTracKids. He started when he was 3 and will be finishing the end of February 2009. When he first started, he used to be very shy and was not very communicative. But now, he has progressed so well that he outsmarts everyone at school. He has learned a lot from FasTracKids, especially social skills, team work and communication skills. We are very happy with his progress. In fact, we are planning to enroll our daughter in this program, too."

“Shaan attended FasTracKids for a year and a half before entering kindergarten this year. At our first parent/teacher meeting, my husband and I were surprised and very pleased to hear that Shaan was not only doing well, but was already prepared to enter 1st grade. I credit the FasTracKids program and his teachers, Ms. Kippi and Ms. Marla, for Shaan’s early success.”

*Name of Parent: Rosa*

*Name of FasTracKids Student: Ciara*

*Age: 6*

*Hometown: Staten Island*

**Comment:**

“Ciara loved FasTracKids from the first class through the last one. She graduated a few months ago and she still talks about it. She constantly mentions how she wishes that she could still attend. When she started attending FasTracKids, Ciara was shy and did not like to speak and when she did, no one could hear her. Now, she likes to participate and it is not afraid of speaking up. Her vocabulary improved and every time she uses a word that she learned, she mentions that she learned that particular word at FasTracKids. “

“Charlie was on the quieter side and sometimes shy before he entered FTK. He completed 2 years of the Fast Track Program. I was amazed with his comfort level and interest to express complex thoughts and ideas while being taped during his participation in the program. His interest in the subject matter was evident by his detailed descriptions of what he had learned while on the ride home. Our family feels that FasTracKids is a wonderful program. “
